Forecast for Saturday 09 Oct 2021

Weather: Mostly cloudy to start, with low-level mist and fog in some eastern valleys in particular. This cloud may be thick enough to produce a little drizzle at times. Becoming brighter as cloud lifts through the morning, perhaps culminating in some brief limited sunny intervals before cloud thickens and descends once again, with patchy rain becoming more likely into the evening.

Chance of cloud free mountain/hill tops above 600m: Near nil first becoming 60% at best around lunch, falling to near nil once again by evening.

Visibility: Areas of cloud down to low slopes early and late, perhaps near valley floors. Improving to around 600 metres at best around lunch.
